(a)
scattered photon E'
recoil electron $T_e = E - E'$
classical (no shift)
Compton edge $T_e^{max} = 477$ keV
backscatter $E'_{min} = 184$ keV
Energy (keV)
Scattering angle θ (deg)
(b)
Thomson (classical)
Klein-Nishina, 30 keV
Klein-Nishina, 662 keV
Klein-Nishina, 2 MeV
measured
$d\sigma/d\Omega$ (10^{-27} cm^2/sr)
Scattering angle θ (deg)
